

ProVide is a user-friendly software solution for secure handling of files & information

STOP BATTLING FILE TRANSFERS AND VERSIONING PROBLEMS

Work together instantly - Easy to use, secure & to the point

ProVide Server is an easy to use, secure file and information sharing solution. ProVide allows project managers and consultants to communicate and collaborate without unregulated ad-hoc sharing solutions. Make document and file management easy to use and completely secure in your own private cloud, allowing IT to keep track. ProVide allows users to do their job replacing; all the other solutions, you do not know about. Make it simple, make it work, and let users do their job.

Ready to act on smart solutions that users will love?

PROVIDE

SECURE

One solution that takes data integrity and secure data transfers seriously.

USEABLE

Communicate, collaborate and work together on all platforms and devices.

GDPR READY

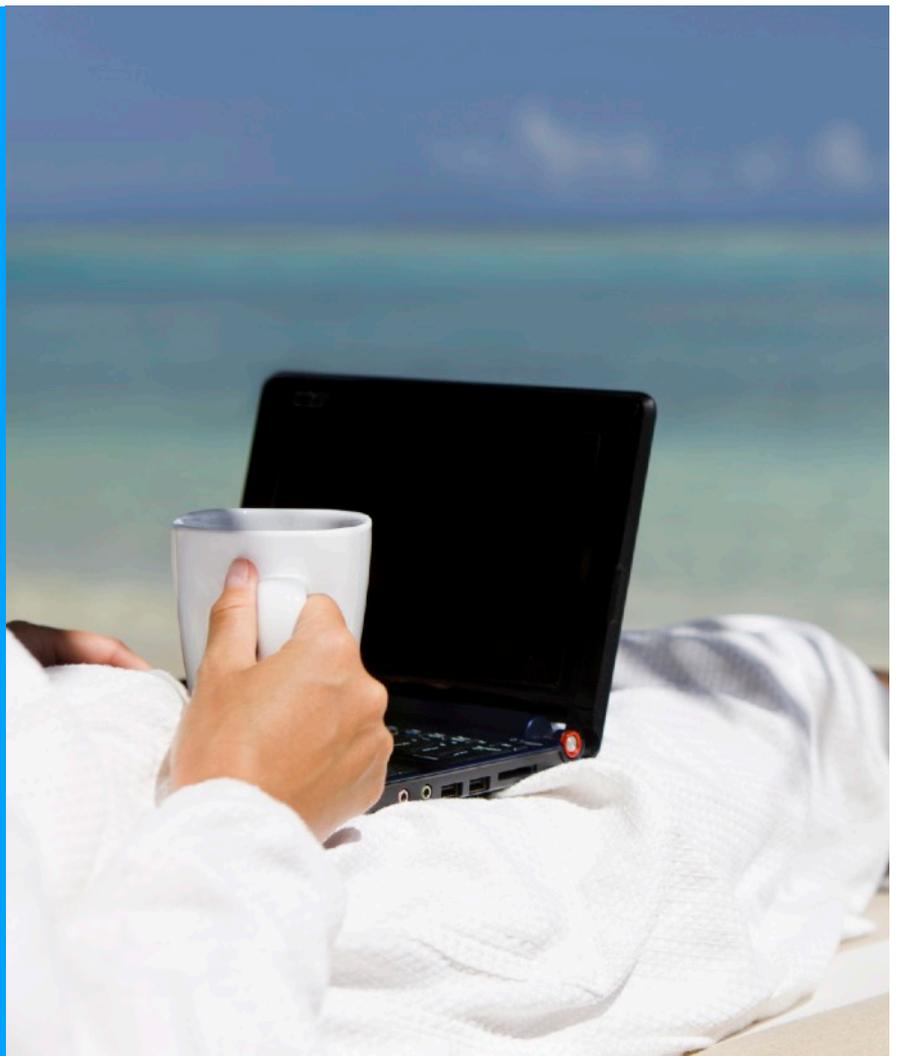

Technical compliance via encryption and logs

MULTILINGUAL

Localized for you and your partners, worldwide

TRUSTED

ProVide was introduced as zFTPServer almost 15 years ago, and is used worldwide by banks, universities, and in industry and service sectors as well as in government.

➤ PROVIDE SERVER - EASY DOES IT!

DIFFICULT TO SHARE FILES, PICTURES AND DOCUMENTS WITHIN YOUR ORGANISATION OR TO PARTNERS?

Fancy an easy to use, secure and GDPR-compliant platform for all file transfers on all devices?

ProVide Server is so much more! Share documents, pictures, & folders on the fly, to those who need it, when they need it and without unregulated workarounds. ProVide deals with security, logs and keeps everything tidy. All is stored in your own private cloud while co-workers and consultants can access and edit files using the built in web interface.

ProVide saves both time and effort for any company, and yours!

PROVIDE IS A USER-FRIENDLY SOFTWARE SOLUTION FOR SECURE HANDLING OF FILES & INFORMATION

Ready for a smart solution for data & information management?

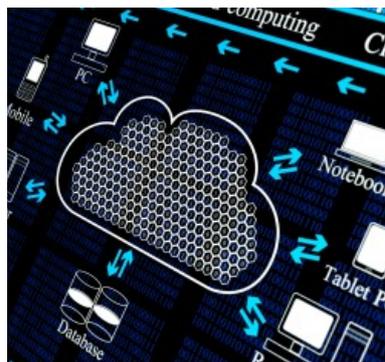

PROJECT WORKPLACE

USER COLLABORATION

Share, receive, collaborate, and edit files on company servers

Allow internal and external users to securely share a project folder where they can work together through a link. ProVide even lets users edit files from the web.

INTEGRATION PLATFORM

MAKE SYSTEMS TALK

Integrates business systems and to automate processes

Streamline and automate company processes by automating and integrating background tasks and events. Compatible & secure means support for most platforms.

INTERNET OF THINGS

GOVERN EVERYTHING

A communication platform for all things connected

Cars, thermostats, fridges, home automation; everything is connected. ProVide is the perfect platform used to centralize and manage data for Internet of Things.
